Loss Set at \$20,000,000 --- Remarkable Scenes Attended Surrender of Insurgents to Free State Forces---Government Issues Call to Arms

DUBLIN, July 6.—(By the Associated Press)—Twenty buildings in O'Connell's street, Dublin's main thoroughfore, were destroyed by fire after the surrender of the insurgent republicans who had turned the buildings into fortresses in their resistance its the provisional Free State government.

The arcs were not completely under control this morning. Only smouldering ruins remained where the insurrence made their last stand. It is because the damage will reach several hundreds of thousands of pounds. Four snipers were shot dead during the night. Barton, former minister of economics in the Dail Eireann cabinet, was arrested at the home of Erstands and their childrens.

Casualties in yeslerday's fighting, so far as city hospitals show, were one killed and 16 wounded.

POLICE UNIFORMS ARRIVED TODAY

The first batch of the new police uniforms, contracted for under the regime of W. C. MacBrayne as acting superintendent of police, arrived at the station last night. This morning a representative of the Boston firm which made the uniforms came to the city to make fittings. Soveral of the policemen tried on the new "unles" and, while they were not exact fits in all cases, the majority of them seemed to answer the bill fairly well.

It is expected that the remainder of the uniforms will arrive tomorrow or Confined to Page Fouriers.

Strike of Railway Shopmen Assumes More Conciliatory Aspect

Exchange of Letters Between Hooper and Jewell, to Open Way to Settlement

Slater, Mo., Authorities Call for Troops, Following Disorders

CHICAGO, July 6 (by the Associated Press).—Strike of railway shenned a more conciliatory associated today, the sixth since the nation-wide walkout, and feeling became more general in rail circles that the last 24 hours had shown a marked trend toward peace, despite increased disorders at scattered points. It was believed that the exchange of letters between Ben W. Hooper, chairman of the United States railroad labor board, and Bert M. Jewell, head of the railway employes' department of the American Federation of Labor, probably opened the way to negotiations for an early settlement.

FIREWORKS DISPLAY THIS EVENING

The postponed display of fireworks, that was to have been a part of the city's Fourth of July celebration, will take place this evening on the South common, beginning at 8.30 o'clock.

At that time a number of pieces that were a part of the original daylight display will be touched off, to be followed when darkness comes, by the big night program. This will continue for nearly two hours and will emhrace one of the most comprehensive exhibitions ever staged in this part of the country.

Scores of set pieces were being set up by officials of the Antonelli Co. this afternoon, as il requires at least four hours of preparation to get the display ready to use.

He suggested that educational platures be both directed and filmed by educators. The manufacturers, Mr. Saunders said, "have produced a few travalogs of foreign screes, etc.," and then called them educational, informing the teachiers they must take these or leave them.

"When asked to produce classroom subjects, the manufacturers retort: "There is no money in them. We can make a million out of the dramatic film."

"The classics have been used in an attempt to catch the educator, but have been garbled to such an extent that their value is lost. They have been worked around for atmosphere and some "love scenes" to allow a star to appear have been interpolated."

Mr. Saunders suggested that true school films should be produced by educators "who know their subject matiger, assisted by the camora man who is himself educated and who can grasp the titeals of the teacher-director."

TO WASHINGTON

MARION, Ohio, July 5.—President Harding left Marion at 10.30 a.m., today, for Columbus, on the first lap of his journey, to Washington after appending nearly three days among home folks and attending the centennial celebration here.

And would make his finding accordingly.

Liquor Cases Hard Fought

pealed and was held in \$200 for appearance in superior court. Sergt, Michael Winn testified that he headed a rate on the store in the afternoon of moonables together with a dozen bottles of Jamaica ginger. The officer testified that Sedrick admitted selling the ginger for 35 cents per bottle. He also testified that, on Juno 15 he saw a soldier and civillan come from the beek room of the store in a drunken condition. Sedrick claimed he had the liquor for his own use.

Sent to State Farm

condition. Sedrick claimed he had the liquor for his own use.

For his own use.

Abert De Angelo of Middlesex st., pleaded not guilty to lilegal keeping, was found guilty and fined \$125. He appealed. He later appeared, withdrawn until temorrow. Capt. Geo. Palmer of the liquor squad testified that he was in charge of the raiding squad which visited that defendants home on June 12. A gallon jug of moonshine, a still, some ompty bottles and a quantity of wine were found and confacated.

'The officer testified that more or less difficulty attended that he discovery as it was necessary to probe for secret passages before the contraband was found. Capt. Palmer sald that he finally located a movable panel in the attic, behind a pile of hilads and made the find.

The defendant claimed that he bought the moonshine two months ago for his own use and that the slid was not in operation when fish non-support, was continued for three months as he has agreed to contribute \$25 per month to the support of the complainant, James E. O'Loughlin, charged with frunkentfound and had evidently been dismanted.

The material loss to the citizens of Dublin, is very heavy. The value of the buildings destroyed is estimated at between £3,000,000 and £4,000,000 while the destruction also means the loss of very large sums of rentals and loss of very large sums of rentals and probably considerable unemployment.

Says Do Valera Escaped

According to the Irish Independent, Richard Barton, afterwards arrested in the Childrens' home, was a partielpant in the Sackville street fighting and escaped from the stronghold with Mr. De Valera.

Describing yesterday's surrender, this newspaper intes remarkable scenes that followed when the grisoners, including two women, were marched down the streets to the armored cars ready to remove them to their various places of detention. Enormous crowds collected to watch the removal and there were some demonstrations, especially on the part of the youthful element of both sections. Some of the male prisoners were dressed only in shirts and trousers and looked battle-worn as did their escorts.

Had there been a need for the helicopter during the war, he said, any of several types could have been perfected, of which working models have been flown.

hy a machine equipped with horizontal propellors or revolving planes, designed to rise vertically from a confined space and descend on the same. That the helicopter is possible, Dr. Zahm said, is proved by the German machine, which, rising several times to moderate heights, has carried observers, remained almost stationary while in air, and descended in safety. The machine, however, has made no extended flight, such as would prove its dependability, but was tethered to the ground by a mooring rope. At times, when the motors failed, the machine dropped and the passengers saved themselves only by leaping with parachutes. achules.

Experiments Continuing

The experiments are continuing, however, with the purpose of perfecting a motor which can be depended upon to maintain the machine without sudden failure, the scientist explained, for, as soon as the engine stops, the machine cannot glide to the ground as does an airplane, but drops vertically. In a proper descent the propellers should be whirled slowly to ease the landing. Present hopes of attaining successful vertical flight rest mainly upon the endeavors of Emil Berliner, Washington inventor, whose experiments with the helicopter have extended over a long time, and of Louis Brennan, of London, whose newest machine is reported as nearing completion. He is working to win the fifty thousand pound prize offered by the British air ministry for successful flight.

Interrepts Communist

M. Viviani interrupted a long and dreary reading of newspaper clippings and diplomatic messages by the communist, designed to show that M. Polincare-was responsible for the war, and exclaimed:

"If anyone is responsible for the war, if was I. I was head of the sovernment: I kook whatever action was taken, and I acted in perfect accord with M. Poincare (then president). I was in touch with him and in agreement with him when he was at St. Petersburg."

care's visit as prosident to the Emperor Nicholas.

The deputies jumped to their feet, waving their arms wildly, and Ar. Poincare rushed to M. Vivinin and kissed him on both cheeks. Others embraced the premier and the exprender, and for several minutes therowas an excess of enthusiasm.

When he could make his voice heard above the uproon, M. Vivianl pleaded with M. Valilant-Courturier to abondon his interpellation, as it was of no use to continue, and asked him to return to "the sacred union" observed during the war, when all parties buried the political hatchet. His eloquence so moved the deputies that they slood in silence as a mark of admiration.

The debate was interrupted for so one that the chamber adjourned until onnorrow afternoon, the premier insisting upon a full airing of the mat-

It was the premier's second victory of the day over the communists, as the chamber curiler in the day voted confidence in the government, 304 to 64, on a minor interpellation relative to the suppression of communist activities at Tunis.

against A. Bruce Biclaski on charges that he had connived at his own abduction by bandits recently near Chernavaca, lacked confirmation today at the state department.

No word has come thus far, it was said, from Charge Summerlin to indicate that he had been advised formully or officially by Mexican federal authorities that they looked upon the Biclaski incident with suspicion.

When Biclaski reached Mexico City after his escape from the bandits, he made a full statement as to his experiences to Mr. Summerlin. This document, the charge releganted had been placed in the mall for the state department.

STRIKERS DELAY U. S. MAIL TRAINS

WASHINGTON. July 6.—Interference with the movement of the United States mails by striking refivency workers in different parts of the country was reported yesterday to the country was reported yesterday to the office of the superintendent of the railway mail service. The reports came from Arshall, Tex.; St. Louis, Chaffee, Mo., and Kansas City, Mo., and De Quincy, La.

Officials of the Texas & Pacific lines at Marshall reported that their trains and trains on other roads in the same territory were being materially delayed as a result of interference by strikers and their triends, who, it was alleged, were tampering with air appliances and otherwise preventing proper movement of trains.

Officials of the St. Louis, San Francisco Railway company at St. Louis notified Washington that protection was needed for the preservation and operation of trains used in handling mail matter. They requested that some action be taken by the government at once. "Serious trouble" was reported from Chaffee, Mo.

action be taken by the government at once. "Serious trouble" was reported from Chaffee, Mo.

The Kansas City Southern Rallway company reported from Isanas City that the strike situation was growing more serious and that at De Quincy, strikers had warned officials in charge of mall trains not to attempt to transfer mail matter during the night.

The postoffice department, it was said, would dispatch inspectors to all points where trouble might arise in the transmission or the mails. The inspectors will be required to make an immediate investigation and transmitresports at once to the superintendent of the railway mail service here who, if he deems it advisable, will place the matter before the department of justice.

Government Arossed

There is a disposition on the part of the administration, it was understood, to deal with strikers or any others who may interfere with the proper dispatch of the mails in the most vigorous manner. Under no circumstances, it was said, will the government tolerate any hindrance to the movement of the mails.

While every credence was placed in the reports received during the day from the strike xones in the south and southwest section of the country, the postoffice department nevertheless was of the opinion that no drastic action should be recommended to other agencies of the government until complete verification of reported interference with the mails has been received.

Donald D. Stewart and His Alleged Bigamous Wife Face More Charges

Accused of Plotting to Steal "Property, Money and Goods" of Boston Woman

Boston Police on Way to Los Angeles to Take Couple Back for Trial

LOS ANGELES, July 6.—A new fugitive complaint charging Donald Duncan Stewart, former clergyman, and his alleged bigamous wife, Ethet Turner Osbandeston Stewart, with having conspired to steal the "property, money and goods" of Norma L. Ehrenseilar of Boston, November 12, last, was on file in the district attorney's office here today."

Miss Ehrenseller is one of several women with whom Stewart is alleged to have gone through marriage ceremonics.

Stewart and Mrs. O. S. Bandeston Stewart and Mrs. O. S. Bandeson Stewart were arrested near here about two weeks ago. He obtained his release from the city jail last Saturday on a writ of habas corpus. The woman filed a petition for a similar writ yesterday.

smake talk before the Concord Central Labor uniton.

Mr. Burry said he disliked to make such a statement about Senator Moses in his home town, but that the sen-ator's unfair attack on Vice-Presi-dent Sharr of the National Textile or-ganization, who is in charge of the strike at Manchester, called for a re-

ganization, who is in charge of the strike at Manchester, called for a reply.

The statement of Senator Moses about Starr was characterized as "the spouting of a cheap politician, unhecoming to the dignity supposed to attach to a United States senator."

The attack on Senator Moses came in course of a talk on the 48-hour and general labor topics by the state federation president. It was followed by an appeal to the labor unionists to support only candidates who are friendly to labor by A. O. Morgonson of Gorbam, ith vice-president of the state federation, and chairman of the non-partisan progressive political movement in New Humpshire, who is here seeking to caroli the unionists as members of the new party. Morgonson is supporting the candidacy of ex-State Senator John C. Hutchins of North Strafford, for the democratic nomination for governor. He says the new party has a large encolument in the northern part of the state.

Chairman Hooper asserted that the labor heard has been protecting the interests of the striking shopmen oven while they have been calling the board names.

Harbinger of l'ence

Harbinger of Pence

Another harbinger of peace in the statement by Chairman Hooper was that a number of railroads which had figmed out shop work to contractors were ready to aboilish the contract system, the big issue in the shopmen's strike, according to returns in the strike referendum.

Fifty additional wago adjustment cases, 44 of which apply to clerks and not included in recent decisions, were set for hearing by the liber board today.

Despite the agreement of their president and members of his executive committee to withhold strike orders, maintenance men at various points were reported to be joining striking shopmen.

One Men Shot

With the exceptions of the Slater disorders of the Alton, the s of the Alton, serious disturbances most serious disturbances of the strike occurred in the south. A Algiers, near New Orleans, clashes oc-curred between striking shopmen and

guards for the Southern Pacific. One man was shot. Railreads for the most part an nounced passenger and freight traffic still to be unhampered. Ultimatums to strikers to return to work by the early part of next week or forfeit all seniority rights still stood effective in some railroad shops taday.

Strike Breakers Routed

Strike Breakers Routed,
SLATER, Mo., July 6 (by the Associated Press).—Railroad officials today awaited word from Gov. A. M. Hyde, before making further plans for reopening the Chicago & Alton shops here, from which a crowd of more than 500 strikers drove 18 strike breakers yesterday.

After the strikers had cleared the town of strike breakers, drawn a dead line around the shops beyond which strangers were not allowed to pass, and had established guard posts at various points, they settled down to wait developments.

Sheriff John Logsdon agrees, with local officials in discounting the probability of any trouble. His force consists of two deputies and one office assistant. Acting on advice of Gov. A. M. Hyde, he masuccessfully endeavored to cullst a small force of deputies.

THE RAILROAD TROUBLE

It is good news for the country that so far as appears at present there is little or no danger of any immediate spread of the railroad strike, and the probability is, that the difficulties between the Brotherhoods and the Railroad Labor Board will eventually be satisfactority arranges. The statement who had threatened to strike have postponed their walkunt pending negotiations which promise a solution of the difficulties involved. The statement issued by President Grable relative to this decision is the pending the clay council should consider in processing in the pending the clay council should consider in processing the present the present that the pending the present the present that the present the present that the prese sensible and likely to give him increased prestige in the pending negotiations. Here it is:

"After most careful consideration of the entire situation we have reached the conclusion that it is not wise for our membership to leave the service of the carriers until every resource has been exhausted that affords a hope of a peaceful adjustment.'

Despite the fact that 90 per cent of the men voted in favor of a strike. President Grabie deemed it wise to halt the strike order and strike, President Grable deemed it wise to halt the strike order and president or some other government enter negotiations with the carriers on the changes in the wage schedule, working rules and the contracting for repair work with outside shops. working rules and the contracting for repair work with outside shops. This action leaves the shop crafts alone on strike; but they will have the backing of the others in their struggle for justice and there is no denying the fact that they are the most inequitably paid class of workers in any way connected with the railroad business. A large proportion oneroaching upon the republican of them could carn more money in ourside industries.

According to the statement of B. M. Jewell, head of the railroad employes' department of the American Federation of Labor, the Railroad Board had overlooked something which it should have done before declaring the strikers "outlawed." This, he said, was to negotiate a settlement between the shop erafts and the carriers which the board had not done. The strikers have an able and zealous advocate in Mr. Jewell. The railroad men are showing a spirit of conservatism and a willingness to compromise that if reciprocated by the carriers is likely to result in a satisfactory settlement. This is a poor time to strikeindeed it would be hard to find a favorable time to strike on a railroad; but in the present state of the country, with the industries struggling our Fourth of July colebration, still back towards normaley, a railroad strike would assuredly half their progress and prolong the business depression.

The railroad unions realize this fact and hesitate to inflict such an injury on the country; but it is hoped that the carriers will show an wern warmer. equal desire to avoid trouble and a willingness to compromise on a l'ausettlement of the issues in controversy.

THE CAUSE OF IT ALL

Even the Boston Herald, which is a high authority on the affairs of the republican party, is at a loss to know why that party has suffered so many reverses in recent election contests, including those of Pennsylvania, Indiana, Iowa and North Dakota. The Herald reaches the conclusion that these results are due to a certain kind of cussedness on the part of the electorate that causes them to vote against the government regardless of whether that attitude is just or unjust.

It seems that in this the Herald betrava a lack of elucerity or class a species of political astigmatism that was wholly unsuspected from an organ of such clear vision on other matters It must be quite apparent to the un-prejudiced mind that the chief charge against the republican administration is, that it has indulged mainly in hot air discussions and in making claborate charges against its predecessors but without doing anything practical in the line of solving the great questions of reconstruction.

The bill may be passed before the present session closes or it may be II seems the administration is It seems the administration unable to guarantee maything for the benefit of the country. The homes bill has been subject to a species of huggling that has disgusted overybody. The republican party in its national campaign, pledged itself to pass a bonus bill for the service men; but after being placed in power, the leaders decided that the question had better be postponed. It was brought up again, and again postponement was proposed and largely favored. Now, however, it is probable that some make-shif measure will be forced through congress; but it is not likely to satisfy either the voterans or the taxpayers. As a result of a vigorous battle put by Senator Walsh of Massachusetts, the bonus bill has adopted for their prevention. vigorous battle put by Senator Walsh of Massachusetts, the bonus bill has been given the right of way after the tariff, but that is a very indefinite arrangement for the reason that nobody can tell when the tariff hill will sively, under the general title of "Mill havards and How to Avold Thom."

The local Chamber of Commerce Builetin for July contains a very interesting expose of a gat-rich-quick oil concern. According to the builetin some very philanthropic and charitable group of Adamses, way down in Texas, who are in the oil promotion garms, are coing to become as "rich Texas, who are in the oil premotion game, are going to become as "rich as the Rothschilds and as prominent as the Morgans," if people will only buy their oil atocks. But there is a catch in it! These promoters are not going to let every Tom, Dick and Harry in on their millionaire's game, but only members of Adams 'tamilles. Only people named Adams will be allowed this great opportunity to get rich. They want the oil company to remain under the family name of Adams. Consequently, they are endeavremain under the family name of Adams. Berton Braley's Daily Poem SURE FIRE

Though broad generalities seldom apply To all individual cases, Here's one you can bank on-it won't go awry, It's true of all colors, all races; So, this is the counsel-with sweetheart or wife,

Be lavish with phrases endearing, They're something that she, through the length of her life, Will never grow weary of hearing; The fact that you love her, your actions may show. But, nevertheless, keep on telling her so!

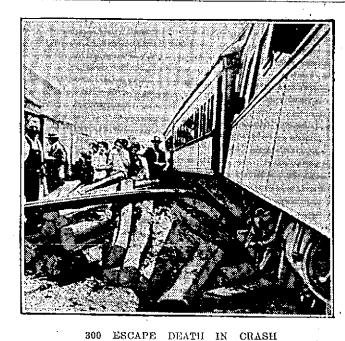

She may call you silly, but deep in her breast, The glow of her love waxes brighter; That little "I love you," sincerely expressed, Is certain and sure to delight her. She may say "You softie," and "Don't be absurd," But-note the warm light that's appearing Way back in her eyes when again she has heard The words that she wants to be hearing. He wise: if you love her, wherever you go Just keep on repeatedly telling her so.

Though frequent the cases where passion has waned,

You never will find among such . A sait where the wife of her husband complained He told her he leved her too much;

It thrills here in heart and in spirit; matter how often your love may be told, She always is ready to hear it.

Oh, man, if you love her, keep letting her know, Keep always, eternally telling her sol (Copyright 1923, The Lewell Sun.)

GRAVE OF GRANDFATHER OF LINCOLN FOUND

LOUISVILLE, Ky., July 7.—The area in which is the grave of, Abraham Lincoln, graudfather of the matryred president and for whom the boy Lincoln was named, is a circle is fact in diameter under a cornar of the Long Run Baptist church, is the conclusion reached by the Rev. William E. Barton, Oak Park, Ill., as the result of a recent visit to the church.

Dr. Barton, who is an authority on the paternity of Abraham Lincoln and author of several books of the subject, came to Louisville in search of additional information to be used in a book he was writing. He was accompanied to Long Run by R. C. Ballard Thruston, Louisville historian, and a number of other interested persons.

After a search among the hombstones falled to supply information, a number of the other residents of the neighborhood were questioned. In this way it was learned that the church had been built over a part of the cemetery and was believed to tover what was believed to be the Lincoln grave.

Severial planks were removed from the floor and the ground banoath the opening examined. This survey falled to disclose any tangible proof of the existence of the grave. This does not disprove the assertions of the older residents, Dr. Barton said, because only a small part of the ground county definitely has been determined through records in the office of the county definitely has been determined through records in the office of the county of John Calboun Bryant. After the death of Lincoln, the records show one of his sons, Movdecal Lincoln, sold the land to Benjamin Bridges. The grave of Bridges and his wife are in the Long Run church graveyard.

The elder Lincoln farm, according to the records, consisted of 457 across and embraced what is now the farm of John Calboun Bryant. After the death of Lincoln, the records show one of his sons, Movdecal Lincoln, sold the land to Benjamin Bridges. The graves of Bridges and his wife are in the Long Run church graveyard.

Dr. Barton, as paster of the Congregational charch at Oak Park, has initiated a movement for the raising of funds among the admirers of President Lincoly for the accellon of a fitting tombatone at the grave of the Rev. Jesso Head, who on Juna 13, 1800, performed the marriage ceremony for Thomas Lincoln and Namy Hanks, parents of the president. The marriage took place in Washington county, Ky. Dr. Barton said the grave had been located definitely in Harrodsburg, Ky.

When Baby Complains.

THERE ARE MANY WAYS a baby has of expressing any pain or irregularity or digression from its normal condition of health and happiness. A short sharp cry, a prolonged irritated cry. Restlessness, a constant turning of the head or of the whole body, fretful. In these and other ways a baby tells you there is something wrong. Most mothers know that a disordered stomach, or bowels that do not act naturally are the cause of most of baby's sufferings. A call for the doctor is the first thought, but in the event of any delay there should be ready at hand a safe remedy such as Fletcher's Castoria.

Castoria has been used for baby's ailments for over 30 years and has merited the good will of the family physician in a measure not equaled by any other baby's medicine because of its harmlessness and the good results achieved.

And remember this: Castoria is essentially a baby's remedy and not a cureall for every member of the family. What might help you is too often dangerous

Cardinals' Star Second Baseman Clouted Out His 20th Home Run Yesterday

Promises to Excel National League's Season Home Run Record

NEW YORK, July 6 .- Rogers Hornsby, slugging second baseman of the St. Louis Cardinals, promises to excel this year the National league's season home run record that has weathered the test

run record that has weathered the test of time and hefty clouding for 38 years. Ed. Williamson of the old Chicago Nationals set the record at 27 in 1884, a mark that such sluggers as Anson, Brouthers, Delahanty, Schulte and Cravath have sought in vain to betten. Hornsby clouded out his 20th honor while the Cardinals were trimming Chichmati, ii to 4, and with the season only half gone, his chance, not only to exceed, but establish a figure to shoot at for years to come, is especially bright. both leagues.
Cravath set a modern National league mark with 24 homers in 1915. Overge Kelly of the Clants led the league last year with 23 and Hornsby was second with 21.

The Chicago Cubs hammored out an 11—5 victory over Pitisburgh whila Detroit grabbed an eleventh inning triumph from Cleveland, 6—5, in the only other games played yesterday in the major leagues. The Speaker caught drive in the first inning.

Teams in both leagues shift battle-grounds today; western contenders of the American invading the east while the eastern clubs in the other circuit take up the struggle in the west. The Clants start their trip against the skidding Pitsburgh Pirates while the St. Louis Browns open against Bostoh. Cleveland is scheduled to piay a double header with the New York Yankees.

stuff that is entirely original.

During a recent series at St. Louis with the Boston club there was present at one of the games a chap who had a brand new line of chatter.

Muddy Ruel, doing the catching for Boston, is a St. Louis boy. Early in the game he made a brilliant stop of a low pitched ball. The catch was made almost entirely with the bare hand.

a low pitched ball. The catch was made almost entirely with the bars hand.

I feared at first that probably he had suffered a broken bone and called time so that the Boston trainer might take ware of the injury.

"Rip" Collins, doing the pitching for Boston, was much concerned about the affair. He walked up to Ruel and by massaging the hand tried to help relieve the pain it was evident Ruel was suffering.

When everything was quiet the fan with the new line of chatter, who, by the way, had considerable voice, shouted in his best key:

"Why the delay, Mr. Umpire? Let's go on with the game. If Ruel is looking for sympathy he will find it in the dictionary under S."

Even Ruel had to smile and we proceeded with the game. If Ruel is looking a municipal opera company plays light cande operas, Recently, when I was working in that city, the well-known light opera, "The Highwayman." was the attraction.

Lute in the same game that Ruel had suffered his injury I had a couple of close plays that went against the Rrowns. After the second one friend fan told the world the following:

"Say, Evans, after those two decisions I have decided they made a mistake in not casting you for a part for "The Highwayman."

It is needless to any that I had my little smile. I might also add that a fan with a new line of chatter always can get by, It's the old stereotyped stuff that falls to get over with the athigtes.

MIXED MARRIAGES

SPRINGFIELD, July 6.—According to a ruling made by the Right Rov. Thomas M. O'Leary, bishop of the Springfield diacese, non-Catholics contemplating marriage to Catholics in this diocese must take a six weeks course of instruction in Catholic doctrice before a dispensation-permitting the marriage will be granted.

The announcement was made at the mesacs in Holy Family and other Springfield Catholic churches last Sunday, but did not become generally known until yesterday. It provides that the non-Catholic party to a proposed wedding must receive instruction twice a week for six weeks from a priest of the parlsh where the wedding is to take place.

According to reports here, the announcement was made by the bishop at the opening of a retreat for priests of the diocese kold in Worcester last week, the second week of which is now in progress in that city.

Hishop O'Leary has always been opposed to mixed marriages, and while they have been discouraged, no ruling of auch a drastin nature as this one has been made here before. It is believed to have been brought about by the large number of mixed marriages which have taken place in this diocese during the last month.

FIST FIGHT ON FLOOR OF HOUSE

Sen. Stewart and Rep. Claiborne Clash After Heated Tilt in Lousiana

BATON ROUGE. La., July 6.—A fist fight on the floor, of the Louisland house of representatives between Senator J. O. Stewart of Lake Charles and Representative F. C. Claiborne of Now Roads was the chief topic of conversation about the capital today. Mr. Claiborne came from the encounter with a bleeding cheek. The fight followed a heated tilt in connection with a senate bill which had been referred to the house judickary committee of which Claiborne is chairman. Under a resolution adopted by the house, a committee was appointed to investigate Senator Stewart's action in coming into the house and engaging in a fight with a member of that body.

CRY LONG LIVE THE POPE

Gendarmes Policing the Vati-

can Mutinied This Morning -- Immediately Disarmed

LONDON, July 6.—(By the Associated Press)—A Central News despatch from Rome says the gendarmes servating in an honorary capacity in policing the Vatican mutined this morning, crying out; "Long live the pope!" "Death to the commandatt!" They were immediately disarmed and placed in the barracks occupied by Swiss reards.

LEARN MORE ABOUT WOUNDED SOLDIER

Bit by bit the police are beginning to solve the rather mysterious shooting of Jose Garcia, the Camp Devens soldier, who was found with a builter wound in his right side on the Aiken street bridge early yesterday morning. Until interviewed by Chief Aikinson, at a late hour yesterday morning, Carcia steadfastly refused to divulge the slightest information regarding his wound. Yesterday he told the chief of certain incidents in connection with the shooting, while an interview this morning, again with the chief, brought out several more important links in the case.

morning, again with the chief, brought out several more important links in the case.

Owing to the soldier's unfamiliarity with this city and his weakened condition, the definite information needed before making arrests could not be obtained. At the Lowell Corporation bospital it was today reported that he will be moved to the Camp Devens base hospital. The soldier has promised Chief Atkinson that as soon as he is able, he will return to the city and give him every assistance in locating his assailants.

At the Corporation hospital today it was reported that Francis Trainor and Athaneas Boisjolie, two of the victims of July 4 stabbing affairs, are in excellent condition, having made a rapid recovery in each case.

At St. John's hospital, Frank Bouchard, another sufferer from knife wounds, was said to be doing well.

In preparation for the opening a conference of the 35 supervisors has been called for Friday forenoon of this week at 10 o'clock by Supt. John W. Kernan of the park department and Arthur C. Sullivan, assistant director of the summer's work. At this conference much of the year's program will be discussed and the supervisors will be addressed by Dr. Francis A. Finnegan, director of school hygiene, and Miss Louise French, assistant supervisor of physical education.

Many changes have been wrought in the playground system this year, a number of new areas have been added, one
